GTA- Vice City.exe Win. i. Make GTA Vice City Game working and Win. Vice City is the first in the series in which we see the use of atmospheric in games, where you can be in a city with an atmospheric background, without looking to load a map. There are two basic things that need to be done for the game to work properly. Download the program Gens. Start the program and load the file GTA Vice City. It should work fine, although you have to click twice on "Run" and hit "Play". If there is any error, a message will appear. There are four languages: English, Spanish, French and German. You must have a large disk drive (usually more than 7 MB). We recommend at least 640 Kb of RAM. Necessary files: \* GTA Vice City.exe \* GTA Vice City.nsf \* GTA Vice City.dmg \* Vice City.zip, etc. If you have the disk, the file should work automatically. If not, do the following:
